Letters to the Editor

Sunday, March 26, 1950
To The Editor:

Practically since its existence, the village of Lincoln Estates has suffered from a lack of adequate roads. During the past week or two, however, these abominable driving conditions have reached a new, and seemingly avoidable, low. It is no longer advisable for anyone to travel the side streets of Lincoln Estates unless he is willing to pay frequent towing bills and repair bills for the damage he is certain to do to his car if he is foolhardy enough to venture out on these "cowpaths."

The few roads that are passable are full of ruts and holes which are so deep that the undercarriage of the car—particularly the later models—drags along the high spots.

One extremely bad spot can be found on Woodvale avenue, between 79th and 80th avenues. This spot doesn't even resemble a road anymore.

Another mud-trap—even worse than the above mentioned—is located on 80th avenue, about 250 feet north of Lincoln Highway. Five unfortunate drivers had to be towed out of this quagmire Sunday. Numerous others were forced to park their cars along the road, wade through this mucky barrier, and walk home. Sunday visitors of 80th avenue residents received an obnoxious reception when they encountered this obstacle. They, too, were forced first to surmount it and then continue on foot to their destination.

Certainly the days of pioneering are over in this area. Yet the townspeople of Lincoln Estates are forced to attempt traveling these so-called roads which, I doubt very much, could compare with the paths that early American settlers wore through the wilderness. In these days of the atom bomb, the hydrogen bomb, of airplanes traveling faster than sound, it seems hard to believe that anyone should be forced to put up with these miserable, antiquated conditions.

What must the people of Lincoln Estates do before they are able to travel on reasonably safe roads? Or is there no solution to this problem except to wait for the next election of a new road commissioner, or else for good of Sol to dry out this mud and mire and make these "cowpaths" at least passable once more.

A Dissatisfied Resident of Lincoln Estates

John Haley, 84, Dies In Washington, D. C.

Mrs. Richard Gorham and Adolph Haley have received word of the death of their brother, John Haley Wednesday, March 22 in a Washington D. C. hospital where he had recently undergone an appendectomy. The burial services were on Saturday, March 25 at Washington, D. C.

Mr. Haley, who was 84 years of age, spent his youth in Hadley community, leaving here about fifty years ago. He was engaged in the drug business in Washington from that time until about a year ago when he retired.

A few years ago, Mr. Haley came to Illinois and the Haley families honored him at a reunion. Since that time the reunion has been an annual affair. He also came to Chicago to attend the golden wedding anniversary of Mr. and Mrs. Manley Haley.

He is survived by his wife Genevieve, one sister, Mrs. Gorham of Homer Twp., two brothers, Adolph of Homer and Manley of Chicago, besides several nieces and nephews.

N. Lenox Twp. Youth Taken to Vandalia

It is estimated that over 1000 persons attended the concert in the Joliet Township high school Sunday given by the Will County Rural Chorus and the Joliet Symphony orchestra. The large audience seemed spellbound, the setting and renditions were so lovely.

A replica of a large stained glass window and a large lighted cross decorated greatly to the effects. Arthur Eneix, and Pasquale Crescenti, showed well their ability as directors. The program was varied, the high lights being the difficult "Hosodui Pomilui" a chant used as a response in the Russian Orthodox church; the arrangement of Lincoln's Gettysburg Address, set to music, was beautiful. During the singing of it with the orchestra accompanying, an echo of "Tent-

New 1951 Frazer To Be Shown in Mokena

TINLEY CHILD SAVED FROM TRAIN TRAGEDY

About 11:30 o'clock last Friday morning a two year old boy was saved from being struck by a fast moving freight train near the Rock Island depot in Tinley Park. The little lad was standing in the middle of the east bound track facing the oncoming train and watching with wonderment the large bright headlight on the Diesel engine.

A passerby, walking along the station ramp, saw that the boy was in terrible danger. She ran and pulled him to safety when the train was not more than 20 feet away.

This is just one of several occasions when children have had very close calls and this incident should be a warning to all parents.

Small children need special care because they are not conscious of dangers to life and limb. Everyone should remember that safety for children must begin with the parents and start in the home.

The present cold war may be of many years' duration. While Russia keeps its masses behind the Iron Curtain of fear, ignorance and slavery, let America rekindle the beacon light of 'Liberty enlightening the world'; make available a free elementary school, high school and a tuition college education to every American child and ever surpass the lead it now holds in the fields of education, science and production."

Supt. Nickell Tells Of Mental Health

Vernon L. Nickell, state sup't. of public instruction, participated in a panel discussion at the morning meeting of the Illinois Society for Mental Hygiene in Chicago today.

In his remarks before the society Nickell discussed the educational programs of his office created for the benefit of exceptional children. He said, in part, "Mental health services should be primarily preventive. The school children of Illinois represent the greatest field for the application of good mental health services of any agency in the state."

"The schools of Illinois," Nickell continued, are actively engaged in mental health programs at the present time. All special education represents a good application of mental health in that we are trying to meet the interests, needs, abilities and disabilities of children who are exceptional."

Nickell pointed out that at the end of the school year, June 30, 1949, 45,762 children were recipients of special education services. Of that total, 4,700 children were in classes for the educable mentally handicapped; a service which was not provided by the state at all when he became sup't. of public instruction.

Rural Chorus and Symphony Orchestra Concert Praised by Large Audience

Eneix, and Pasquale Crescenti, showed well their ability as directors. The program was varied, the high lights being the difficult "Hosodui Pomilui" a chant used as a response in the Russian Orthodox church; the arrangement of Lincoln's Gettysburg Address, set to music, was beautiful. During the singing of it with the orchestra accompanying, an echo of "Tent-

ing Tonight" was brought in as a background. Fred Holt was narrator.

The "Pilgrim's Chorus" with the orchestra and chorus was splendidly done, as well as Malotte's arrangement of "The Lord's Prayer." The final number, "Battle Hymn of the Republic" was more than awe-inspiring. It was superlative and the audience insisted

upon an encore which was provided with the final measures of the "Battle Hymn."

Levon Seron, symphony business manager, asked the audience whether this event should be made an annual affair, and by the hearty response, the two organizations will next year give another combined concert.

What Others Say

Ed Erard in Kingsville, Texas Record (Non-Partisan) says:
... Harry Truman heard there was a coal shortage at last. So he grabbed John Lewis by a loose eye-brow and led him to the coal-shed with a whip that looked like the one Simon Legree used on Uncle Tom. And it had the Taft-Hartley trade mark on the handle. Said Harry: This is going to hurt me worse than it does you ...
Overland Park, Kansas, Johnson Co. Herald (Ind.) asks:

Harry has been promising to have the Taft-Hartley Law revoked. If he had what would be his recourse now in the coal strike matter? It must have hurt the President's feelings not to have been able to find any other way out.

Berea, Ohio Enterprise (Rep.) says:
... Lewis and his relatives draw fat salaries, have made not even a gesture of repudiating them for benefit of the miners. He is now 70, at retirement age, and could retire with some glory. From now on he'll be a dictator shorn of his greatest powers.

It's past time for John to give the country a chance. Miami Beach, Fla. Times (Ind.) says:

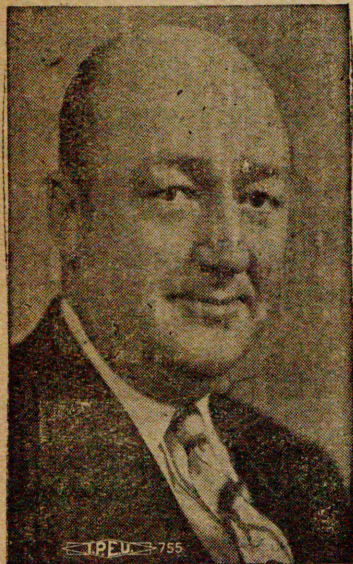

For the life of me I can't see how Uncle Sam can pull himself up by the bootstraps and look forward to recovery from the present slump that our Nation is suffering, simply by handing out Government money to boost the prices of all the different kinds of food that people are accustomed to eating. From time immemorial the prices on the merchants' shelves have been fixed according to the invisible device of supply and demand. The stock and grain markets managed to boost the prices of food and other necessities of life pretty much as they pleased. But when the politicians go off on some other form of adventure the prices go down. Right now the Government is the weight of the "Fair Deal."

attempting to dictate and predict the cost of all kinds of public necessities, especially crops, grains, fruits and vegetables that come off the farms. There are a lot of prescriptions offered by Congress about farm security, but none of them, even though they may have the approval of the ruler in the White House, seem to furnish any evidence that they will make the farmer successful or rich.

The law of supply and demand has bogged down under the weight of the "Fair Deal."

ANOTHER YEAR—ANOTHER CHICAGO FAIR

Major Lenox R. Lehr, president of the Railroad Fair of 1948 and 1949 (second from left), turns over possession of Chicago's lake front exposition grounds to Kent Chandler, president of the New Chicago Fair of 1950. Watching are (left) Daniel MacMaster, rail fair general manager, and (right center) Crosby Kelly, executive manager of this year's project.

CHICAGO (Special)—Things are humming on the city's lake front here these days as Chicago prepares for another mammoth exposition that is expected to draw visitors from all over the country this summer.

To be known as the "Chicago Fair of 1950" and to be presented on the same site where more than 5,250,000 spectators witnessed the national Railroad Fair in 1948 and 1949, the new fair will open on June 24 and run through Labor Day.

Instead of being a one-industry project like the rail exposition, this year's event will be a regular world's fair in scope. Designed to emphasize the achievements of industry, commerce, agriculture and science that have contributed to the American heritage, exhibits will be centered about major companies in all lines of endeavor that have contributed most directly to modern living. Wherever possible, stress will be laid on the radical innovations these institutions have in the making for the future.

As in the case of the rail fair all exhibits will be "live" presentations, well saturated with dramatic entertainment instead of the

dead displays usually seen at strictly trade fairs.

Prime attention is also being given to special events like the "Wheels A-Rolling," the pageant that drew more than 2,700,000 spectators in the past two summers here. Its successor, especially written for this year's fair, will be "Frontiers of Freedom," a 14-scene extravaganza showing all the major steps in American progress from William Penn's treaty with the Indians to the scientific developments of today.

Anticipating that major attendance will come from family groups, as in all previous Chicago fairs, most entertainment areas will be designed with a special appeal for the youngsters. These will be located at selected intervals between the more serious industrial exhibits to keep the new fair in proper balance between its heavier and lighter themes.

According to Crosby Kelly, the fair's executive manager, visitors will be assured a full day's entertainment at a cost in keeping with the most modest pocketbook. This economy program will apply particularly to the fun features and the several new dining places soon to make their appearance on the fair's 55-acre grounds.

Over a hundred people from all over Lincoln Estates came and brought many lovely household gifts and then joined in a general get together with refreshments.

The Origin of April Fool

If you were to hold a New Year's party Friday night, you might be considered an April Fool, but you would have history on your side.

It was the habit of observing July 1st as the beginning of the year that is said to have started the whole idea of All Fools Day. From its reputed origin in France, it quickly spread to other countries. We have such varied terms as the English "noddies,"

gawbles and April gobs," the French "April Fish," and the Scottish Gowks."

While there are other theories about April Fools Day, the calendar story located by research librarians with Chidcraft Books appears most logical. It seems that when King Charles XI of France adopted the reform calendar in 1564, many Frenchmen refused to go along with the new January 1 New Year's. When they continued to celebrate on July 1, they were made the butt of countless jokes—receiving mock party invitations, fake gifts, and pretended ceremonious visits of congratulation.

These nonconformists probably were the first April Fools.

Newkirk Seeks Support In Sheriff Race

Ralph H. Newkirk who has served Will county as sheriff from 1942 to 1946, states his record of these years is the best endorsement that he can have for his campaign for Sheriff in this April 11 primary. Mr. Newkirk, a Republican candi-

date for that office, said that during his term of office he proved himself a fearless and capable public official and points to his record with a great deal of pride.

The Newkirk family is well known in Will county. After high school, Ralph started working with his father, James E. Newkirk, who was in the cement contracting business in Joliet and later (1918-1922) was sheriff of Will county. Later

Ralph started his own contracting and trucking business, which he operated successfully until 1942 when he was elected sheriff. He has a brother Franklin, who owns and operates a ready-mix concrete business in Joliet and Aurora.

Ralph is married and resides with his wife and daughter, Marion, at 1101 S. Richards street, Joliet. They also have a son, James, who is employed by the Public Service Company.

Newkirk states that he welcomes and solicits the support of all voters in Will county, and calls at-

tention to the Republican ballot on which his name appears second on the list of candidates for sheriff.

The first basketball game was played in 1891 with a peach basket and a soccer ball. Today, says The World Book Encyclopedia, this fast-moving sport attracts more spectators each year than any other sport in the United States.

The United States 1949 commercial apple crop was 133,388,000 bushels, one and one-half times as large as the 1948 crop.

which includes six counties: Will, LaSalle, Boone, DeKalb, Grundy and Kendall.

Mr. Peace is a lifelong resident of 502 West Van Buren Street at

Ottawa, Ill. He was educated in the Ottawa Township high school and at Northwestern University. He is an active Republican.

Being affiliated with the Ameri-

can Legion Post 33, Veterans of Foreign Wars Post 2470, Marine Corps League, Marine Corps Reserve IIIB, AF of L 991 and the CIO. Glass No. 19 has given him a fine understanding of impartiality and fairness.

SUPER MARKET SELLS ART—With drug stores selling roller skates and hardware stores installing soda fountains, it was only natural that sooner or later the grocery store would stock oil paintings. That's exactly what happened at this super market in Caldwell, N. J., where the customer can buy a hunk of surrealism on canvas with his canned goods, if it strikes his fancy. Paintings, ranging in price from \$10 to \$100, are sold on a "self-service" basis, with all the proceeds going to the artist.

MOKENA

At the Palm Sunday services at 9:30 a.m. in the Methodist church two young people will be confirmed by the pastor Rev. Prater. They are Gene Manhart and Marvin King. Sunday school will convene at 10:30.

Col. and Mrs. Don C. Hall returned last Wednesday from spending the winter at Mississippi City, Miss. They are well and were among the first to gather in the VFW hall Thursday evening to attend the Republican rally.

The following young people will be confirmed Palm Sunday, April 2 in the Immanuel Lutheran church: Cecil Ambuehl, Charlotte Gilmore, Doris Schults and Joanna Schults. The choir will give special music. The service will start at 10 o'clock. There will be no Sunday school.

The two year old son of Mr. and Mrs. Harold Williams of Chicago, Richard Lee, and the eight months old daughter, Susan Elizabeth, of Mr. and Mrs. George Beirger of Mokena was christened in the parsonage of St. John's Ev. and Reformed church Sunday afternoon at 2:30 o'clock by the pastor, Rev. William Riemann. Sponsors for both children were their aunts, Miss Grace Nielsen and Mrs. Gertrude McGinnis of Mokena.

Mr. and Mrs. Berle Needham attended the military ball given in the Huff gymnasium of the University of Illinois at Urbana, Friday evening. They were the guests of their son Cadet Captain Richard Needham. They returned home Sunday afternoon.

Mokena friends received word last week of the death of Louis Huweller in Woodlawn, Calif. He was the youngest child of the John Huwellers who lived on the farm corner LaPorte and the Mokena road. About 30 years ago the family moved to California. Louis, who was 40 years old, never married and lived alone on his dairy farm. He was burned to death when his farm house burned to the ground two weeks ago. He is survived by

his sister Lottie.

Theodore Oestreich of Joliet was a dinner guest of his sister, Mr. and Mrs. Hugh Deadmore Sunday.

A capacity crowd of fathers and sons, 168 in all, enjoyed the banquet and program of the Father's and Son's banquet in the St. John Ev. and Reformed church Friday evening. The event was sponsored by the Brotherhood of the church.

Mrs. R. L. Brownlee was hostess at a stork shower in her home Friday evening for Mrs. Ed Hart. Prizes for crash bunco were awarded to Mrs. Everett Cooper and Mrs. Winton Hamilton. List Democratic Candidates in State And Will County

DOMINIC A. ROMANO

Pledging immediate action on slum clearance, construction of low rental dwellings and alleviation of some of the present day tax burdens, Dominic A. Romano, prominent Joliet realtor, pioneer radio executive and founder of Lidice, is seeking the Democratic nomination for State Senator from Will and DuPage counties in the primaries April 1.

As a realtor and civic leader, Mr. Romano has divided his attention unselfishly to many activities. He has served the Real Estate board of Will county for five years as president and has been regional vice-president of the Illinois Real Estate board. He served as chairman of the Will County Rent control board and has sat in with the Housing Authority board in discussions on slum clearance and low cost rental units.

On the Joliet Town board for eight years and having made an intensive study of taxation, Mr. Romano advocates the reduction or elimination of many unnecessary taxes which are a burden to the American people.

RUTH BRANNON

Miss Ruth Brannon of Manhattan is a candidate for State Rep-

resentative in Will and DuPage counties on the Democratic ticket.

Born of rugged, pioneer stock in Manhattan, Miss Brannon is the daughter of the late Dr. G. H. Brannon, one of Will County's foremost country doctors. Her mother, Mrs. Margaret Brannon, with whom the candidate lives, still resides in the old family homestead in Manhattan. Two of her brothers, Dr. Londus and Dr. George Brannon, are prominent physicians and surgeons in the Joliet area.

When Dr. Londus became Will County coroner in 1936, Miss Brannon had the distinction of being the first and only woman chief deputy coroner in the county archives.

Her extensive background has equipped her well for the important role she has played in Democratic affairs during the past 18 years.

ANTON J. GROHAR

The theme of Anton J. Grohar, Democratic candidate for the nomination of sheriff of Will County is, "A Humanitarian for Sheriff!"

And in that statement, "Tony" means that he favors a fair deal for all, regardless of color, class or creed.

Educated in the Joliet public and parochial schools, Mr. Grohar has been a successful business man on Joliet's northeast side for 20 years. Mr. Grohar is also one of the city's outstanding sportsmen, a great baseball enthusiast, he spon-

sors several teams and plans trips to Chicago ball parks for many groups throughout the city and county.

He is a member of several fraternal organizations and is treasurer of the Forest Park Civic club. He is also a member of the Will County Sportsmen's club and the Old Timers Baseball association.

Mr. Grohar is married and resides with his family at 1014 Woodruff road, Joliet.

WILLIAM E. AUSTIN

William E. "Bill" Austin, who is a candidate on the Democratic ticket for probate judge, served in that capacity from 1934 to 1938. According to his friends, his ability in handling the estates of deceased, incompetents and minors were regarded as outstanding by members of the Will County Bar association.

Attorney Austin was educated in the Joliet grade and high schools and later attended DePaul university where he received his law degree. He is a member of the Will County Bar Association and a member of the Delta Theta Phi law fraternity. In addition, he is a member of various fraternal organizations and has long been interested in civic affairs.

Attorney Austin is married and the father of three children, Mrs. Louis Bank, of Aurora, and William E. Jr., and Leo, both of whom served in World War II. He resid-

es at 4 Manor Court, Joliet. His law offices are located in the Rialto Square building.

F. DONALD DELANEY

candidate on the Democratic ticket for State Central committeeman, for the 15th Congressional district. He is being backed by the labor organizations and has extended his personal cooperation to the Labor groups ever since his election to this office two years ago.

Today, in the United States Navy, midshipmen are students of the United States Naval Academy. According to the World Book Encyclopedia, the term "midshipman" was first used during the 1800's when junior officers in the British navy were stationed amidsthip to relay orders.

Fowlpox occurs commonly in most poultry-producing areas but need not be of great concern if a proper vaccination program is followed each year.

The average potato yield in the U. S. in 1949 was 211 bushels per acre, an average exceeded only by the 216-bushel yield of 1948.

Fowl paralysis is most apt to occur during early maturity.

"Clothes for the Regular Fellow"

Corn Acreage Reductions Heavy

"Because of lack of information supplied the local A.A.A. on the past three years, by most farmers in Cook County, the AAA Committee has had no alternative but set a

rule of thumb allotment that will be rather severe. No one need complain because farmers neglected to furnish information desired," states Farm Adviser Hughes.

"The immediate effect will be reductions so drastic few can comply with. The only trouble will be inability to seal corn for guaranteed price this fall. We are expecting a very wide spread between the support and market price of corn. Should there be marketing quotas in 1951, and we certainly hope there will not be, these low allotments will hurt plenty."

"On the whole, this is our request to farmers in Cook County. If possible keep within the allotment. If not help out with some reduced corn acreage. Tend to go along with the Grass-Legume program instead of taking corn acreage and planting more soy beans."

Beans will probably be a dime a dozen next fall.

"The problem of reducing corn is a problem of the corn belt primarily. With Cook County, it is a problem of raising our own dairy replacements on more pasture and not expect to sell some corn to buy some cows somebody doesn't want."

Homemakers Warned To Use Care to Avoid Spring Accidents

Since Spring has officially arrived (March 21) this means that officially, too the Spring housecleaning season has started.

Homemakers need no reminder of this, but a word of warning is issued today by the Greater Chicago Safety Council to save many women and householders from possible death and serious injury as the rugs are rolled up and the winter dust odors begin.

In the series of don'ts for housewives, the following specific hazards are listed by the Council:

1. Don't allow rolled rugs to block doorways for yourself or anyone else to stumble over.
2. Don't permit stray tacks or nails to lie about on floors

DRILL FOR ATOMIC WARFARE—Members of the Air Reserve's 439th Troop Carrier Wing at Selfridge, Mich., Air Force Base receive instruction in atomic defense. The troops walk through a "contaminated" area between tapes laid out on the ground by a monitoring squad with Geiger counters, marking a least-radioactive path. Simulated explosion was set up by atomic experts from Oak Ridge, Tenn.

to be stepped on.

3. Don't try to save steps by piling your arms so full of things that you will miscalculate a step in ascending or descending stairs.
4. Don't climb onto a rocker or an unsteady chair to take down curtains or draperies. A safe, steady step-ladder was designed for this purpose.
5. Don't use the tops of mantels or cabinets as storage places

until you want to return things to their proper places, as books, pictures, or anything with a tendency to slide can easily fall and strike someone.

6. Don't let oily rags or any debris accumulate for several days since the fire hazard is greatly increased.
7. Don't use highly inflammable cleaning fluids near an open fire.

Approximately 75% of all farmers in Will County are expected to sign up for the 1950 Agricultural Conservation Program. This estimate was issued today by Conrad Borms, Chairman of the Will County PMA Committee.

There seems to be more interest among farmers in conservation work this year said Mr. Borms, and we have hopes that the final count will show even greater participation

Things to Know

EDITOR'S NOTE: This is one of a series of articles about venereal diseases prepared for publication by the Cook County Department of Public Health. Names of patients are confidential records and cannot be revealed. The stories are being released in an effort to spread information about one of the most serious diseases in America today and to acquaint Cook County residents with the diagnosis and treatment facilities that are available to them.

A more recent case is that of Jim. He is only 19 years old and just making his start in the business world. He recently applied, along with several other young men, for a bookkeeping position with a large firm here in Cook County.

Jim got the position and was given the company pre-employment physical examination. A blood test, done routinely during the examination, showed Jim to have primary, or very early, syphilis.

When the company reported to Jim that he had syphilis he was ready to kiss his newly won position goodbye. He thought the company would never employ anyone with a venereal disease.

But this firm, unlike many others, offered to help Jim rather than fire him. They referred him to the Cook County health authorities for treatment. Jim's early syphilis was easily cured in ten days through the rapid treatment procedure, and he was on the new job again in two weeks. The company, having helped him from a crippling disease, has gained his respect and loyalty.

So this is the history of just two cases of venereal disease right here in Cook County. In both cases county health authorities were aided by outside agencies in discovering unsuspected syphilis. But they gladly accept, and need, all the help they can get in the early discovery of venereal diseases.

The proper diagnosis and treatment of venereal disease depends upon proper and adequate facilities. The Cook County Health De-

From where I sit... by Joe Marsh

"Curfew Shall Not Ring Tonight"

Our ten o'clock curfew lasted for 50 years, but the town council voted it out. I dropped in at the meeting in Town Hall last week just in time to hear Smiley Roberts.

"The curfew is old-fashioned," says Smiley. "We ought to be grown-up enough by now to behave like grownups. Seeing to it that our kids get to bed is the responsibility of each family." Then Judge Cunningham adds, "Most of us are in bed when the curfew horn blows anyway. It wakes me up just when I'm getting to sleep!"

What the Judge said was good

for a laugh, but Smiley just about summed up how folks think in this town. We believe that the democratic tradition of "live and let live" is the only way to live.

From where I sit, it's not the American way to regulate your life by a horn—any more than it's right to criticize my caring for a temperate glass of beer now and then. Think what you wish, say what you wish, but don't ask your neighbor to do exactly as you do!

Trial and Triumph

Lesson for April 2, 1950

IF YOU HAD BEEN ON the top of the city wall on that first Palm Sunday, watching the crowds roaring into Jerusalem, and some one had told you that all the shouting was for Jesus of Nazareth, you would certainly have thought that his success was a sure thing. Here, surely, was a King who had arrived! But before the week was out you would have seen this same Jesus on trial for his life, and not a voice raised in his defense. The same dusty-throated mob on that Sunday shouted "Hosanna! Blessed is He!" was shrieking on Friday morning, "Crucify him!"

Flowery Beds or Bloody Seas?

There is a popular notion floating around to the effect that God gives good people an easy time. It is not always put just that way. But when a man who has been good (or thinks he has, or has tried to be), runs into trouble, he asks right away, "Why must this happen to me?" The truth of the matter is better expressed in the lines of an old hymn:

"Must I be carried to the skies On flowery beds of ease, While others fought to win the prize, Or sailed through bloody seas?"

Jesus was incomparably the best who ever lived; yet his moments of popularity were short, and he was finally tortured and killed by the leaders of church and state, amid the jeering approval of masses of the people.

He himself said that any follower of his must be willing to take up his own cross. "In the world you will have tribulation," he said to his disciples.

All Tyrants Hate the Church

THE MORE GENUINELY Christian the church is, the more it is likely to run into opposition. There are several reasons for this. For one thing, the church stands for love, and the generosity and unselfishness, the sympathy and even the sacrifice that go with love and are produced by it. But "what makes the world go 'round,'"—the world of the politician, the money-maker, the social climber, the war-maker, the world of the power-thirsty in every sphere—what makes that world go 'round is pride, selfishness, shoving-ahead, Me-firstness. The selfish and the proud do not take kindly to love of the Christian sort, indeed they despise it as a weakness.

But the church, when it is a true church, stands up for humanity even when it has to stand against profits; and the man for whom profit is the first law of life never understands the attitude of the church. Then the church (when it is a real one) always stands for the people against the tyrant, whoever and wherever he may be, even when he is in some church himself.

And consequently all tyrants hate the church. The Roman emperors hated it and persecuted it till they found they could use it (which, by the way, was a bad day for the church). Mohammed, a tyrant of sorts, hated the Christian church and would have totally destroyed it if he could.

Victory—When?

"IF WE SUFFER with him we shall also reign with him," said St. Paul. But when and how? The end of the church's struggles could come in either of two ways. One way would be for the church to give up struggling against the world. Let the church become a club for the sociable, let the church raise no voice of protest against injustice in society, against untruth, violence and greed; let the church give in to the world, in short, and she will have no further trouble from the world.

But in that case she would be dead. Another way is for the church finally to overcome the world. The triumph of the true church is the same as the triumph of divine Love.

That is the future to which the Bible bids us look. When? We do not know. But the Kingdom comes "one heart at a time," and with every soul the church wins from the world-way to the Christ-way, the victory of Love draws nearer.
